EDUCATION

University of California, Irvine <i>B.S. in Computer Science, Minor in Business Management; GPA: 3.5; Honors Program</i>	Irvine, CA <i>Expected June 2027</i>
Irvine Valley College <i>Associate of Science in Economics; GPA: 3.92</i>	Irvine, CA <i>June 2022 – May 2025</i>
USC Viterbi School of Engineering <i>Summer Program: Artificial Intelligence & Semiconductors</i>	Los Angeles, CA <i>Summer 2024</i>
• Relevant Coursework: Data Structures, Algorithms, Machine Learning & Data Mining, Artificial Intelligence, Information Retrieval, Data Management, Software Engineering, Probability & Statistics, Linear Algebra	

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript/TypeScript, SQL, R, HTML/CSS
ML & Data: PyTorch, scikit-learn, OpenCV, pandas, NumPy, Jupyter, Matplotlib, Streamlit
Analytics & Databases: Tableau, Excel, Google Sheets, PostgreSQL, MySQL, SQLite
Frameworks & APIs: React, Django, Flask, FastAPI, RESTful APIs, OpenAI API, Anthropic API, Vapi
Tools & Cloud: Docker, GitHub Actions, pytest, Git/GitHub, MQTT, AWS, Azure, Firebase, Stripe

PROJECTS

Briefly (IoT AI Briefing Station) <i>C++, Python, MQTT, Azure</i>	June 2026 – Present
• Leading a team of 2 building an ESP32 device that delivers morning briefings without a phone • Writing C++ firmware with FreeRTOS tasks so alarms keep working even when the network fails • Summarizing feeds with a local LLM behind a Python MQTT gateway so no personal data leaves the home network • Streaming device telemetry to Azure IoT Hub to chart usage patterns on a live dashboard	
Big Five Personality Graphical Models <i>Python, scikit-learn, NumPy, Matplotlib</i>	June 2026
• Trained an Ising model with L1 regularization to map how 50 personality survey items relate (CS 179) • Ran community detection on the learned graph and recovered all five traits exactly (adjusted Rand index 1.00) • Predicted masked answers using graph neighborhoods and raised accuracy from 64.5% to 77.6%	
ASL Computer Control & Typing (LA Hacks 2026) <i>Python, OpenCV, MediaPipe, Gemma</i>	Apr. 2026
• Built the interface and media controls so users can type and run playback with hand signs alone • Tuned detection logic for easily confused letters and led testing that confirmed 97% typing accuracy • Prototyped a Gemma integration so the tool could take commands in plain language	
Tweet Sentiment Classification (UCI Datathon 2026) <i>Python, BERT, Streamlit</i>	Apr. 2026
• Trained a BERT model with a team of 4 to classify tweet sentiment and predict emoji labels • Shipped a public Streamlit dashboard so anyone can explore the model results live	

EXPERIENCE

Transfer Center Peer Educator <i>University of California, Irvine</i>	June 2026 – Present <i>Irvine, CA</i>
• Mentor 70+ assigned incoming transfer students through scheduled meetings that give timely answers • Analyze attendance data in Excel and Google Sheets to plan events because turnout drives center funding • Connect students with resources matched to their needs and goals	
Computer Science Club President <i>Irvine Valley College</i>	Aug. 2024 – May 2025 <i>Irvine, CA</i>
• Grew active membership nearly 30% from 700+ to 900+ by expanding outreach and event programming • Organized 20+ events teaching Git, command line, and network protocols that classes never covered • Recruited professors to speak and put club funds into socials so events built a real community	
Intel Student Ambassador <i>Intel Corporation</i>	Aug. 2024 – May 2025 <i>Irvine, CA</i>
• Led club workshops walking peers through OpenVINO and oneAPI for use in their own projects
